Exclusive Collection

The Arts Bar Team have carefully curated this cocktail menu to invite you into a journey of art, flavours, textures and creativity taking inspiration from worldwide artists and from culture that our palaces and Venice possess.

In a unique collaboration with Berengo Studio we have created a collection of glassware that elevates the cocktail experience to new heights. Each vessel has a creative spirit, transforming the everyday and reflecting on the ancient history of Murano glass.

Cheers!
Salute!

Creativity needs community, community needs creativity. Literary and artistic salons have always been a staple of the art world, a tale as old as time. A hub of creative activity is a form of sustenance, a place to replenish, where one can fill one's cup, both literally and metaphorically.

A glass is an intimate object, a bridge between the world and our bodies, a place of confluence, a place of convergence, a place where art can be accessed in the most unexpected of ways. So take a seat, take a glass and drink.

MARINELLA SENATORE - I Contain Multitudes 2022

Unveiled at The St. Regis Venice for the 2026 Venice Biennale, Marinella Senatore's art finds its foundation in Community and Illumination, reflecting the luminous energy of her iconic light sculptures. Rooted in Italian distilling traditions, Grappa forms the structural core of the drink, grounding the sip in deep heritage. Bergamot and limoncello honor the artist's Southern Italian origins, while Sichuan pepper unleashes a vibration on the palate a sensory spark echoing the flicker of a light switch. Lastly, licorice soda captures the nostalgic sweetness of a childhood carousel.

FRIDA KAHLO - Two Fridas 1939

Kahlo's art is inspired by her fragmented and passionate world, tracing the bittersweet duality of her identity. The combination of Tequila and Tepache represents her Mexican roots adding vibrant and folkloric intensity. Her European heritage inherited from her father inspired the use of Kümmel, a German liqueur that brings sharp and grounding notes. Hints of mulberry act as a metaphorical vein crossing the canvas, bringing a deep crimson color and evoking the resilient vitality of a divided soul.

VINCENT VAN GOGH - The starry night 1889

Van Gogh's art is inspired by his brilliant and turbulent mind, tracing his geographical and artistic evolution from darkness into light. The link between the artist and his deep Dutch roots inspired the use of a Stroopwafel cordial, a typical sweet from Holland that evokes his youth and homeland. The combination of Marigold and Abricot du Roussillon represents his transition to the south of France, radiating a sunlit intensity that channels the vibrant colors of Provence portrayed in his masterpiece. A light illuminates the liquid from beneath, visually recreating the vibrant, radiating stars and pulsating brushstrokes of his work.

KEITH HARING - Untitled (dance) 1987

This electrifying cocktail captures the essence of Keith Haring's vibrant energy and the pulsating rhythm of New York's underground scene. An American Whiskey forms the base, honoring the artist's roots and his rise in the city that never sleeps. Through a masterful process, the whiskey is co-distilled with coffee into a crystal-clear liquid, a nod to the pure, minimalist essence of Haring's iconic lines. Combined with a touch of ginseng, it injects urban adrenaline, channeling the electric atmosphere of the legendary Paradise Garage club. Finally, a vortex of edible glitter illuminates the transparent spirit, visually recreating the artist's famous "motion lines" with every sip.

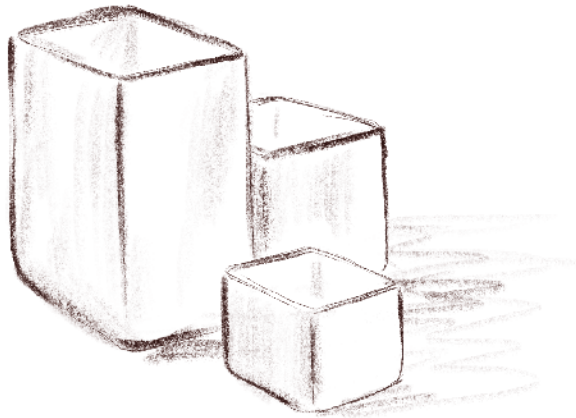
Urban Grid

Masterpieces

CITRUSY • SPICED • JUNIPERY



A tribute to Mondrian and his bold, abstract masterpiece. This drink, the Urban Grid, is a symphony of flavors, mirroring the vibrant colors and geometric shapes that define his artwork. We use gin produced by a Dutch distillery, recalling Piet's homeland, as main ingredient for a Martini cocktail composed of three glasses with different sizes, different heights, different content. Yellow represents the citrus, red represents the spice and blue represents the juniper. In the heart of London, where the iconic "Composition C No.III" by Mondrian hangs, the No. 3 recipe was developed creating one of the world's best gin.

PABLO PICASSO - Les Demoiselles D'avignon 1907

Canvas Temptation is a liquid canvas that evoke the provocative and enigmatic feeling of the original work. A concoction made by a grape spirit, symbol of abundance and present in the painting. We create a fig & tonka cordial where fig represents fertility and sexuality, echoing the provocative nature of the women and tonka, a natural aphrodisiac, infuses the cocktail with a hint of intrigue and desire. Chili, a spice introduced to Europe by Spanish explorers, reflects the passion and intensity of the demoiselles and finally spirulina, a blue green algae with roots in Africa, adds a vibrant color that recalls the mysterious atmosphere.

BANKSY - Venice Biennale Graffiti 2019

Inspired by one of the most talented street artist in the recent years: Banksy. During the first week of the Venice Biennale 2019, this piece of art appears on one of the buildings in Venice. We use mezcal, a spirit with a very strong personality yet mysterious and unknown to the commercial streams of popularity, similarly to the artist we are getting inspiration from. To link the cocktail with the local area, we created a cordial using artichokes from the Venetian island of Sant'Erasmo. To reproduce the smoke, we created a pink air that comes out of the glass.

KAREN LAMONTE - Reclining Nocturne 3, 2019

Inspired from “Reclining Nocturne 3” by Karen LaMonte , an American artist known for her lifesize sculpture. This sculpture of a dress in glass uses the absent reclining female nude to challenge traditional perceptions of body and identity. This work of art has been selected by Berengo’s foundation to be previously showcased at the St Regis Venice. Adriano Berengo is an important Venetian glass patron. The dress without a woman inspired us to create a spritz without alcohol to challenge traditional perceptions of aperitivo.

CLAUDE MONET - Il Canal Grande 1908

Inspired from “Il Canal Grande” dated 1908 by Claude Monet, a founder of French Impressionist painting. Venice’s light and colors seduced the painter, like many other artists before. He was 68 years old when he came to Venice with his wife just for a few days. The beauty of the city let him stay longer. “We finally arrived at the Hotel Britannia, with a view, if such a thing were possible, even more beautiful than that of Palazzo Barbaro.” We decided to dedicate a drink to him as he had the pleasure to stay in one of our buildings, at that time called Grand Hotel Britannia. This cocktail is our interpretation of an alcohol free Martini.
